

User manual of Compatible Inkjet Cartridges

1. Tear off the yellow sealing film before installation (Fig.1).
2. Press the clip upwards to remove it slowly from the cartridge as shown in Fig. 2 and Fig. 3. Ink may leak if the procedure is not performed properly. Clean the ink outlet after removing the clip if there is ink.
3. Install the cartridge into the printer according to the user manual of the printer.
4. If “Not original ink cartridge” message shows, click “YES” to continue printing
